SIEMENS

SUMMER DISCOUNT SPECIAL

ABB "ACROSS THE LINE" CONTACTORS

[Kent Industries Incorporated](#) has been carrying the Siemens line of industrial motor controls for over 15 years and we have taken pride both in our fast delivery and competitive pricing level. Whether you are looking for the [Siemens 3RT line of IEC contactors](#) or [3RU overload relays](#), we can provide excellent pricing and next day service on the entire line up to size S3.

We have recently received discounted pricing on both the [3RV line of motor protectors](#) and the [3SB line of 22mm pilot devices](#). We are currently stocking all AMP ranges for the [3RV1011](#) and [3RV1021](#) frame sizes and will soon be stocking the 3RV1031 and 3RV1041 as well.

In the coming months, Kent will also be stocking the [6EP line of Siemens power supplies](#) at discounted pricing.

So next time you come across the need for any of the Siemens line of low voltage motor controls, please feel free to give us a call at 800.222.5129 and see the pricing we can offer you.

[Kent Industries Incorporated](#) is proud to announce a special discounted rate on the entire line of [ABB contactors](#), overloads and accessories. This special rate is available only for the months of July and August and you will receive this rate when you call and mention this newsletter.

So if you are looking for a replacement for an existing ABB contactor or simply looking for a low-cost and reliable alternative to your current line of motor controls, give the [ABB "Across the Line" contactors](#) a try

Thank you for subscribing to the monthly [Kent Industries Incorporated](#) Newsletter. If your e-mail address was incorrectly added to our list or you would like it to be removed, [please click here](#) and you will immediately stop receiving correspondence from us.
